DETAILED ACTION

This communication is responsive to Amendment dated 2/22/2006.

Claims 1-23 are cancelled; claims 24-42 are newly added (not new claims 24-46 as said on the first page of the Response to Notice of Non-Compliant Amendment). Accordingly, claims 24-42 are pending for the examination.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 24-42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 24-42 introduce to a totally new invention, which is no related to liquid crystal nano-structures as it should be. All limitations in claims 24-42 are not supported or described in the specification of the current invention.
